Work experience

Front-End Developer (Internship) – City of Paris (Mairie de Paris) June – July 2026
Improved the usability and accessibility of user interfaces, optimised existing applications, wrote SQL queries and functional specifications.

Back-End Developer (Internship) – Keozia Technology January – June 2026
Developed and maintained a full-stack application, integrated back-end features and application services, optimised SQL / NoSQL queries, integrated payment solutions with Stripe and PayPal, helped resolve technical issues and improved existing features.

Back-End Developer (Internship) – Philiance April – July 2025
Designed a database, built forms, created API routes, developed the admin area, tested features and updated content.

Hotel Receptionist – Hospitality October 2019 – May 2023
Welcomed and assisted guests, managed bookings, handled phone calls and emails, provided information, dealt with requests and complaints, processed payments.

Soldier – French Army, 44th Signals Regiment September 2013 – September 2018
Teamwork, surveillance and monitoring, planning and organisation, handling unexpected situations and adapting to constraints, writing and transmitting reports.
